LUCAS ANDREWS

FULL STACK WEB DEVELOPER

/ ABOUT ME

Specialized in web and mobile application developments. I am a very autodidact person who is always looking for new learning experiences and solving problems creatively, hand in hand with my perfectionism.

Besides my laboral life I have a huge passion for sports and nature. I believe in and practice a healthy lifestyle. On the other hand, I aquire a great ease in communicating and relating with people.

In search of a long-term job that is constantly teaching me new things, together with the possibility of being an input in society.
